## Your adventure starts here!

### Description:

Forest, rivers , waterfalls , cascades , caves and Adventure Tourism activities are some of the attractions of Presidente Figueiredo , a city located 107 km from Manaus . In this piece of paradise we can visit Maruaga Park , rapids of Urubuí Park, APA Shrine or Iracema waterfall with several trails in the woods where we will be in direct contact with nature and we can see a wide variety of typical plants and visit the Cave and also bathe in the waterfall.

# Amazon Eco Adventures

Starting our tour with pickup at 8:00 am we travel part of the 174 highway for 107 km along this road that leads to the northernmost region of Brazil, with our first stop on the road that links to the Balbina hidroelectric, there we will visit the APA Cave Park the Maruaga where we will begin a walk with a little more than 2 km in an estimated time of two and a half hours through a High Land forest comprising one of the biomes of Amazon which is along with the igapó (flooded forest during the flood period) and Lowland (flooded area of the banks of the Amazon River).

Caves and Waterfalls

# Amazon Eco Adventures

On this walk we will observe , Big Trees, Vines , Birds Singing, with the exuberance of our nature which we will face with a giant sandstone cave with a waterfall in the front during part of the year , see records in stone from former residents of this place. Now let's go in and observe life in the cave with its various species of residents. Now we move on our walk through walls with your feet in the water for about 300 yards seeing images that makes us to have the impression that we have found the lost world of our imagination by observing these walls and trees coming from the space.

Following this path we will reach another fantastic place, the Judea Cave, where most of the year we can bathe in the waterfall in a setting that looks like this a science fiction film , but non real and fiction are always in the Amazon Jungle as many prefer to say. After returning we'll visit the City Hall park Urubuí, at this site there is a beautiful scenery of the rappid that cuts the the city and has all the infrastructure for bathers who come to visit city . We will make at this place our Lunch with dishes like fish , roast beef with juice and sodas.

# Amazon Eco Adventures

In the second part of the Walk we visit the Sanctuary or Iracema falls in a hotel complex that features the most beautiful waterfalls and throughout the region , where we take a short walk and then we 'll have a good and relaxing bath contemplating this beautiful scenery that only Amazon nature can provide. Now oh yeah! , we can go back to Manaus renewed and having in our memory the best and most beautiful experience that we will never forget.
